Cal Mag + P

12-2-14

DIRECTIONS FOR USE: Plant-Prod® 12-2-14 Cal Mag + P is recommended for use on all plants depending on the water quality. This fertilizer contains higher levels of calcium and magnesium. For tender plants and greenhouse spray applications use one half the dosage. Plant-Prod fertilizer is soluble at the rate of 2½ - 4 lbs. per gallon of water. Use warm water for best results.

CAUTION: This fertilizer contains boron, copper, manganese, molybdenum and zinc, and should be used only as recommended. It may prove harmful when misused.
This fertilizer is to be used only on soils which respond to molybdenum. Crops high in molybdenum are toxic to ruminant animals.

Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.org/metals.htm

The micronutrients within Plant-Prod are available at a greater pH range due to the presence of EDTA chelating agent.

ppm Nitrogen / Nitrógeno	Plant-Prod® 12-2-14 (oz./100 Gallons / Galones)	E.C. (mmhos)	oz. gallon of stock / oz. galón de stock (1:100 injection ratio) / (ratio de inyección 1:100)
50	5.5	0.47	5.5
100	11.0	0.93	11.0
200	22.0	1.81	22.0
300	33.0	2.64	33.0
400	44.0	3.44	44.0

GUARANTEED ANALYSIS / ANÁLISIS GARANTIZADO:

0.05% chelated zinc / zinc quelado

DERIVED FROM: Potassium nitrate, monopotassium phosphate, calcium nitrate, magnesium nitrate, iron EDTA, manganese EDTA, zinc EDTA, copper EDTA, boric acid, sodium molybdate.

DERIVARSE DE: Nitrato de calcio, nitrato de potasio, nitrato de magnesio, fosfato de monopotasio, ácido bórico, molibdato de sodio, EDTA hierro, EDTA zinc, EDTA cobre y EDTA manganeso.

Chlorine (Cl) (maximum) / Cloro (Cl) (máximo).....0.3%

Potential basicity (lbs $CaCO_3$ per ton of fertilizer) / La basicidad potencial (libras $CaCO_3$ por tonelada de fertilizante).....371 lbs.

INSTRUCCIONES DE USO: Plant-Prod® 12-2-14 Cal Mag + P es recomendado para su uso en toda planta, dependiendo de la calidad del agua. Este fertilizante contiene altos niveles de calcio y magnesio. Para plantas tiernas y aplicaciones de rociador de invernadero, use la mitad de la dosis. Plant-Prod fertilizante es soluble a una tasa de 2 ½ - 4 libras por galón de agua. Use agua tibia para mejores resultados.

CUIDADO: Este fertilizante contiene boro, cobre, manganeso, molibdeno y zinc, y debe usarse únicamente según las recomendaciones. Puede ser dañino si se utiliza mal.
Este fertilizante debe usarse únicamente en suelos que respondan al molibdeno. Cultivos con niveles altos de molibdeno son tóxicos para animales rumiantes.

Hay información disponible con respecto al contenido y niveles de metales en este producto en el sitio internet http://www.aapfco.org/metals.htm

Los micronutrients en Plant-Prod están disponibles en un mayor rango de pH debido a la presencia del agente quelante EDTA.

Water Soluble Fertilizer

DANGER

Hazard Statement(s):
H318 Causes serious eye damage.
H351 Suspected of causing cancer.
H360 May damage fertility or the unborn child.
Precautionary Statement(s):
Prevention:
P201 Obtain special instructions before use.
P202 Do not handle until all safety precautions have been read and understood.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
Response:
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308 + P313 IF exposed or concerned: Get medical advice or attention.
P310 Immediately call a POISON CENTRE or doctor.
Storage:
P405 Store locked up.
Disposal:
P501 Dispose of contents and container in accordance with local, regional, national and international regulations.
