

18-3-6

Guaranteed Minimum Analysis

Total Nitrogen (N)	18%
3% Nitrate Nitrogen	
15% Urea Nitrogen*	
Available Phosphoric Acid (P_2O_5)	3%
Soluble Potash (K_2O)	6%
Iron (Fe)	0.1%
0.1% Chelated Iron	

Active ingredients derived from registered and exempt materials; Urea, ammonium phosphate, potassium nitrate, iron chelate EDTA.

NPK Complete

- Highly effective foliar Nitrogen, Phosphorus, Potassium and Iron formulation
- Formulated for optimum colour and plant health

Rates:

Turf (Greens, Tees & Fairways)

Apply 220-510 ml per 100 m² (applying no less than 8 L of diluted mix/100 m²) NPK Complete 18-3-6 is compatible with most technical turf products. When mixing with other products, check dilution rates. Apply every 7 to 21 days, or apply along with a summer disease program.

Sports Turf and Lawn

Apply 60-320 ml per 100 m² in sufficient water for good coverage.

CAUTION: Keep out of reach of children.

Direction for use:

NPK Complete may be applied as an undiluted spray or mixed with water where spray equipment requires more volume. Avoid high spray volumes (generally over 230 L per hectare) where possible because of excessive run-off. Rates of 45-360 g per 100 m² are suggested depending on the frequency of application, turf traffic, turf species and season. For general conditions, apply 45-180 g of N for frequent applications (1 to 2 weeks), or 225-360 g of N for less frequent applications (3 to 4 weeks).

Caution:

This fertilizer contains iron and should be used only as recommended. It may prove harmful when misused. Since weather, crop, soil and other conditions may vary, the manufacturer and / or the seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling whether or not in accordance with directions or suggestions.
