Bio 30

- Highly effective foliar Nitrogen formulation
- Stabilized Nitrogen provides uniform colour and growth response

Rates:

Turf (Greens, Tees & Fairways)

Apply 125-380 ml per 100 m² (50-145 g N per 100 m²) as necessary during the growing season.

Sports Turf and Lawn

Apply 125-250 ml per 100 m² (50-100 g N per 100 m²) in sufficient water for good coverage.

CAUTION: Keep out of reach of children.

Product information:

Bio 30 is a non-clogging blend of nitrogen fertilizers with nitrogen stabilizing characteristics and naturally occurring plant stimulating products. **Bio 30** will help promote healthy and vigorous re-growth during high traffic periods. For maximum results **Bio 30** can be used along with other Turf Pride® Solutions products. **Bio 30** may be injected in small amounts on a regular basis into irrigation systems (fertigation).

Direction for use:

Bio 30 can be applied throughout the growing season to cool, transitional and warm season grasses.
