	CA-QUA-3040 Letter of assurance carrier	Revision: 1
		Date: 21/11/2025
		Page 1

Date: November 21st, 2025

Subject: Letter of Assurance

Biobest Group NV. assures that materials such as Lignocel (sawdust type material pure untreated softwood), buckwheat hulls, bran and paper used as carrier for beneficial organisms do not contain additives or preservatives and are free of genetically modified material, and hazardous plant disease and insects.

Additionally, the agar that is used in the packaging of *Micromus angulatus* is food grade and free of preservatives, genetically modified material, and hazardous plant disease and insects.

All carrier materials comply with the requirements of Good Manufacturing Practices.

All supplies and products are stored, transported, and delivered under conditions to minimize hazard and contamination.

Best regards,

Lieve Vandendriessche
