

Sticky cards and rolls are made from durable and recyclable plastic with adhesive on both sides. They are used for timely detection of pest infestations, for monitoring pest population sizes and for mass trapping. They are capable of catching the flying stages of insects. Different colors attract specific species (see below for details).

Product Specifications Traps

Item N°	Commercial name	Size	Specifications
Bug-Scan® Traps YELLOW			
<i>For thrips (Western Flower, Onion, and Chilli Thrips etc.) as well as whiteflies, aphids, fungus gnats, and small flying insects.</i>			
17253	Bug-Scan Mini Yellow	10 cm x 12.5 cm	• 100 pcs/pack
17927	Bug-Scan Smart Yellow	25 cm x 40 cm	• 20 traps/pack
17254	Bug-Scan Dry Yellow	10 cm x 25 cm	• 20 traps/pack
17899	Bug-Scan Dry Yellow	25 cm x 40 cm	• 20 traps/pack
17911	Bug-Scan Yellow	10 cm x 25 cm	• 20 traps/pack
17895	Bug-Scan Yellow	25 cm x 40 cm	• 20 traps/pack

Bug-Scan® Traps BLUE

For thrips (Western Flower, Onion and Chilli Thrips etc.) as well as shore flies.

17889	Bug-Scan Blue	10 cm x 25 cm	• 10 pcs/pack
17923	Bug-Scan Dry Blue	25 x 40 cm	• 20 traps/pack

Bug-Scan® Traps GREEN

For Echinothrips americanus.

17926	Bug-Scan Green	10 cm x 25 cm	• 20 pcs/pack
17872	Bug-Scan Green	25 cm x 40 cm	• 20 pcs/pack

Bug-Scan® Traps RED

For Leafhoppers (Empoasca vitis), SWD (Drosophila suzukii), vinegar flies, and other fly species.

17888	Bug-Scan Red	20 cm x 25 cm	• 20 pcs/pack

BUG-SCAN® TRAPS and ROLLS

Features

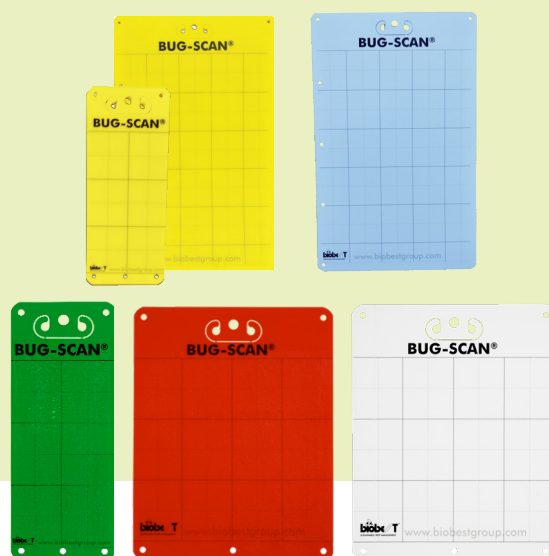

- Grid pattern for easy pest counting
- Traps include hooks and holes for easy installation
- Available in various sizes
- Made from durable, recyclable plastic
- Adhesive on both sides, glue is non-toxic, water-repellent, and heat resistant
- Traps available with dry or wet glue
- Rolls start with a non-sticky section for easy unwinding

Targets

- Aphid (winged)
- Flies
- Fungus gnats
- Leafhoppers
- Leaf miners
- Lygus
- Shore flies
- Thrips
- Whiteflies

Crops

Suitable for use in all indoor and outdoor crops.

BUG-SCAN® TRAPS and ROLLS

Bug-Scan® Traps WHITE

For *Lygus* species, thrips (*Thrips parvispinus* and *Frankliniella intonsa*) as well as shore flies, other flies, and houseflies.

300943 Bug-Scan White 25 cm x 20 cm • 20 pcs/pack

Instructions Bug-Scan® Traps

- Hang traps using the integrated hook to attach them to greenhouse wires, the perforated holes with the provided wire ties, or by inserting a stake through the perforated holes.
- Position the trap vertically at crop height for ornamentals or 10" (25 cm) above the crop for vegetables unless the target pest requires horizontal or soil-level placement.
- A grid on one side of the trap aids in easier counting.

Monitoring

Inspect traps and rolls at least once a week to monitor pest presence and pressure. Replace sticky traps and rolls as soon as they become saturated with insects.

Storage

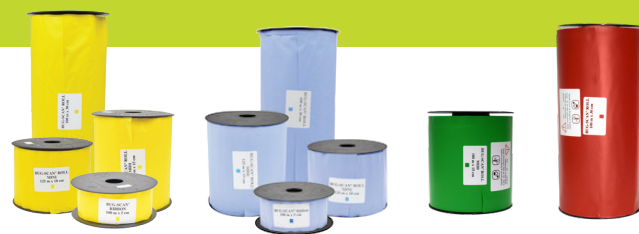

Store at room temperature 50-77°F (10-25°C).

Best uses and rates

Use small Traps for monitoring and Rolls and large Traps for mass trapping. For tailored advice based on pest pressure and presence - which vary by crop - contact your Plant Products representative.

Bug-Scan® Roll clips

17259 30 cm • 150 Clips

Item N°	Commercial name	Size	Specs

Bug-Scan® Rolls RED

17937	Bug-Scan Roll Red	30 cm x 100 m	• 1 roll
-------	-------------------	---------------	----------

Bug-Scan® Rolls WHITE (Available upon request)

Instructions Bug-Scan® Rolls

- Rolls are easier to place at the beginning of the season, but additional rolls can be added as needed throughout. Multiple colors can be used simultaneously in the same locations.
- Each roll includes a non-sticky section of approximately 1 meter at the beginning to facilitate unwinding.
- Hang the tape using clips and hooks along posts, near windows, and at doors to prevent harmful flying insects from entering.
- For installation guidance, watch the "How to Use Clips for Roller Traps" video by Biobest® on YouTube.

DISCLAIMER: These are general guidelines. Please read label and product information before use. For questions and/or recommendations, please contact your local advisor.
