

Letter of Assurance - Éra Product Line

Les Biotechnologies Ulysse Inc. hereby certifies that all products marketed under the Éra product line, including but not limited to Éra Boost Pro and Éra N-Fix, are manufactured in accordance with applicable Good Manufacturing Practices (GMP).

All microbial strains included in the Éra product line are proprietary strains developed and produced by Les Biotechnologies Ulysse Inc. Manufacturing is carried out in our facilities under strictly controlled and sterile conditions, using validated processes and documented quality systems.

This Letter of Assurance confirms that the Éra product line is controlled and meets the following conditions:

- Each bacterial strain included in the Éra product line has been assessed and certified as safe for its intended use by the appropriate Canadian regulatory authorities, including Health Canada, Environment and Climate Change Canada, and the Canadian Food Inspection Agency (CFIA), under the following references:
 - Cat. No. EN14-228/2015E-PDF
 - Cat. No. EN14-314/2018E-PDF
 - Cat. No. EN14-230/2015E-PDF
 - CFIA-2018137S
 - CFIA-2024148S
- The Éra product line does not contain genetically modified organisms (GMOs).
- All raw materials and ingredients supplied by third-party vendors are inspected upon receipt to verify identity, quality, and conformity to established specifications.
- Product quality is verified through an internal quality control program aligned with applicable CFIA standards and guidance documents.
- All Éra products are stored and handled in facilities maintained under conditions designed to prevent contamination and degradation.
- Éra products are assigned a defined shelf life, as indicated on the product label. When stored according to label instructions, product performance is guaranteed by the manufacturer for the stated shelf-life period. Storage conditions include protection from direct sunlight, storage at room temperature (maximum 50 °C), avoidance of temperature fluctuations, and storage in the original container.

This letter is issued for insurance, compliance, and commercial assurance purposes.

A handwritten signature in black ink, appearing to read 'François Gagné-Bourque', written in a cursive style.
