

## Nature's Own Potassium Chloride - Sifto

Vacuum pan potassium chloride which is produced by industry standard solution mining and evaporation process. The potassium chloride is washed, filtered, dried, screen, compacted into sheets and quality control tested.

Chemical Analysis	Typical	Range
Potassium Chloride	98.90%	98.60 - 99.20%
Sodium Chloride	0.90%	0.70 - 1.10%
Calcium Sulphate	0.06%	0.03 - 0.09%
Calcium Chloride	0.01%	0.00 - 0.03%
Magnesium Chloride	0.04%	0.01 - 0.07%
Water Insolubles	100 ppm	80 - 120 ppm
Moisture	0.10%	0.05 - 0.14%
<b>Physical Properties</b>		
Bulk Density	66lbs/ft3	
Shelf Life	Infinite shelf life when stored in dry environment at ambient temperature	

**Packaging:** 56 x 20kg Bags (Sifto #5320)

**Updated:** August 25, 2015
